## 55% savings with a switch or renewal

In most preschools, afterschools and full-care facilities, energy is the largest Utility spend. As sustainable practices become more prevalent, businesses are on the lookout for ways to efficiently manage and reduce their operational costs, particularly in energy.

## Cheapest Energy for SMEs

LED Lighting, Energy Monitoring technology, Solar and Biomass are just some of the areas that may lead to significant reductions of Energy usage in your business.

## Green Business Electricity

By joining forces with the Federation of Early Childhood Ireland, we're committed to the future of Ireland's children and the sustainability of the childcare sector. Together, we pave the way for crèches to operate more efficiently, sustainably, and profitably.

THE POWER TO SAVE YOU MONEY

**WE SAVED OVER €20,000 IN ENERGY COSTS with Procure.ie**

"Like most creches, the cost of living crisis had an impact on our margins and energy is one of the most significant expenses. It was such a simple process to work with Procure.ie - we had a free audit which revealed we could **save €20,000 per year on the energy costs** at just one of our facilities, it's an incredible savings for us.

The biggest compliment I can give Procure is that I've given their details to at least 20 people since we've started working with them. I wouldn't recommend anybody unless I can stand over them and I can 100% recommend Procure."
